

## 224<sup>th</sup> ECS Meeting

**San Francisco, California | October 27 – November 1, 2013**  
**The Hilton San Francisco Hotel**  
**333 O'Farrell Street, San Francisco, CA 94102**

**Invitation for Speech at symposium “State-of-the-Art Program on Compound Semiconductors 55” at 224<sup>th</sup> ECS meeting**

Dear Professor Mingyuan Gao,

I'm writing to you in our capacity as symposium chair of **SOTAPOCS 55** at 224<sup>th</sup> ECS meeting, to be held in San Francisco, California, US in 2013. We would like to formally invite you to have a invited presentation, titled “Preparation of nanoparticles for tumor sensing” in the conference to exchange and share your important results with participants and find future possible cooperation opportunities.

I believe that this symposium provides a unique venue for advancing the academic debate, offering a wide international perspective and a variety of networking opportunities for researchers.

We sincerely hope that you will join us in making **SOTAPOCS 55** a success. We look forward to receiving your decision and welcoming you to San Francisco.

Best,

Jr-Hau He, Associate Professor of National Taiwan University

The symposium chairs of **SOTAPOCS 55**.
