Beijing 100190, P. R. China

Dear Professor Gao:

On behalf of the organization committee, it is my pleasure to invite you to the A3 Conference on Nanoscale Imaging of Cancers, to be held at Korea Advanced Institute of Science and Technology (KAIST), Daejeon, South Korea on February 19-22, 2014.

Since 1998, the national research foundations Korea, Japan and China have supported “the A3 program” with an aim to promote scientific collaboration between there East Asian (A3) countries. The A3 conference at KAIST in Feb. 2014 will feature 17 talks to be delivered by the scientists actively participating in the A3 program and Korean scientists who have made notable progresses in related fields.

Your participation will help our A3 program positioned as linchpin in scientific collaboration in the East Asian region toward nano-resolution imaging of cancers, a vital solution to quantitative understanding of this disease having formidable complexity. In addition, sharing of your exciting achievements in science will provide inspirations for students and postdoctoral fellows at KAIST.

Sincerely yours,

Tae-Young Yoon
